

Standard/high pressure bladder accumulator

Part no.: 3047166

Product description: SB330-4A1/112U-330A

Characteristic	Value / Characteristic / Information
Back-up version	No
Fluid connection	Standard connection, thread*
Fluid connection flange	without flange, since thread
Fluid connection thread	ISO228 (BSP)
Gas side connection	Standard*
Material- Accumulator shell	Carbon steel
Material- Bladder	NBR
Material- Fluid connection	Carbon steel
Nominal volume	4,00 l
Permitted operating pressure	330,00 bar
Pre-charge pressure	0,00 bar
Product responsible	Accumulator Division
Series	330
Suppl. equipment- Fluid port	no supplementary equipment
Supplement Equipment- Gas side	no supplementary equipment
Type	without type
